### **Discipline**

Rule 35 If any member of the union shall be guilty of any dishonourable conduct, or of such other conduct as in the opinion of the union renders them unfit to be a member of the union, or wilfully breaks the rules of his organisation, or of the union or refuses to comply with any decision of the union upon any matter affecting the sport of homing pigeon racing or exhibition, the union may suspend such member from the privileges of the union for such period as the union may determine. During the period of suspension, the person suspended shall be incapable of being a member of the union and shall cease to be a member of any affiliated society or societies to which he may belong at the date of such expulsion or suspension, and shall be incapable of becoming a member of any other affiliated society or societies. No address or loft belonging to or used by a suspended member shall be recognised by the union during the period of their suspension, unless the union shall otherwise determine. Further, that in case a member is found guilty of fraud in connection with the sport the union may, if they deem it desirable, declare the whole or any part of the birds that competed, to the suspended address or lofts, during the season when such fraud was committed, to be ineligible to compete in races in which union members are permitted to compete. The termination of the suspension of the member shall free all the birds that in consequence of such suspension may have been declared ineligible to compete as above. It shall, however, be within the right of any member of the

union, at any time to apply for the 'freeing' of any such ineligible bird or birds, and the union may, if they deem fit, grant such request on such terms and conditions as they think desirable.

Rule 36; If any affiliated society shall, in the opinion of the council, conduct its affairs in a manner unbefitting an affiliated society of the union, or shall break, or refuse to conform to the rules of the union, or shall refuse to comply with any decision or resolution of the council, or shall purport to retain as a member of such society, or in any way admit to the privileges of membership any person duly suspended from the union during the period of their suspension, the council may, in such cases, suspend such society for a period as the council may determine.

Rule 37; Upon suspension of any affiliated society, all members of such society shall, during the period of such suspension, cease to be members of the union, provided that a member of any suspended society who is also a member of any other duly affiliated society may, with the permission of the union. Provided also that with the like permission any member of a suspended Society shall be eligible for election to any other affiliated society of the union, or may, with the like permission, become an individual member of the union. The application for such permission shall be by letter addressed to the union secretary, and the decision of the committee thereon may be given without holding any formal enquiry or hearing any evidence, but shall be subject to appeal to the union.

Rule 38; When a club is satisfied that a member has tampered with a timing clock, the club shall send the clock in question to the secretary of the union, and if after investigation the union are of the opinion that the case is proved. The member may be dealt with as the management committee of the union think fit. Membership of the union is subject to this condition.

Rule 39; Disputes between members and any society to which they may belong including appeals from any such decision of the society shall be heard and determined by the management committee. Notice of appeal from the decision of a society to the union shall be within 21 days from the hearing by the society, except in cases of fraud subsequently discovered. Financial provision as advised by the secretary at the time is to be provided by the requesting parties.

Rule 40; Where, on an appeal by a member against a decision of his society suspending such member, the management committee affirms the decision of the society, such decision of the union shall have the same effect as a decision of suspension from the union under rule 38 hereof.

Rule 41; Where any question or dispute is hereby authorised or required to be heard or enquired into by the management committee, the following provisions shall have effect; (I) Such matter shall be heard before the management committee. (II) Ten days notice of the date and place appointed for such hearing shall be sent by recorded delivery letter to the society and member affected. Such notice shall state specifically the nature of the question arising for decision, and shall give particulars of the charges, if any, alleged against any society or member (III) Upon proof of the posting of such notice, the management committee shall have power to proceed with the matter in the absence of any party affected (IV) The decision of the management committee shall be final. (V) The management committee shall hear the evidence of the parties and of any witness that may be tendered on their behalf. The management committee may also receive and consider written statements or explanations furnished by the parties. Evidence given orally shall be taken down in writing by the secretary or other responsible person appointed by the management committee. (VI) The decision of the management committee shall as soon as practicable, be communicated to the parties affected, and shall take effect from the date thereof.

Rule 42; In any case of appeal taken before the management committee the parties to the appeal may be legally represented at their own expense if they should so desire.

Rule 43; No member shall be allowed to sit and adjudicate upon any case in which, it is the opinion of the majority of voters present, they are an interested party.

Rule 44; The union may promote, manage, and hold races, exhibitions or shows of appliances connected with the sport, and may offer and award prizes for competition at such exhibitions or shows, and may admit competitors

thereto (whether members of the union or not) on such terms as they think proper, and may make contributions from the funds of the union to similar exhibitions or shows, whether managed or held under the direction of members of the union or of other persons.

Rule 45; The union shall have power, so far as the law allows, to provide, or assist in providing, legal advice and assistance to its members in respect of all questions arising out of, or connected with, the sport of homing pigeon racing or exhibitions, the breeding, training, custody, sale, purchase, or conveyance of racing pigeons, or which, in the judgement of the management committee directly or indirectly affect the interests of the union, and may offer and pay rewards for information touching such matters.

Rule 46; Any application by a member or society for legal advice or assistance shall be made in writing to the secretary of the union, and shall be accompanied by a written statement of the facts of case and any evidence which can be provided in relation thereto. The president, vice -president and secretary may take steps as they deem expedient in the matter, or may refer the same to the committee. The union will pay the first consulting fee.

Rule 47; The management council shall have power to initiate criminal proceedings or otherwise to take such other steps as they may think expedient to procure or assist in procuring the punishment of offences which, in the opinion of the council, affect the interests of the union, and may offer and pay rewards for information touching such matters. Note: The management committee may carry out a re-assessment of the rules at intervals not exceeding five years and would submit recommendations for changes to council. Rule 95; Acceptance of these rules is a condition of membership. All rules will be strictly adhered to. Ignorance of same will not be accepted as an excuse.

### **Clock rules**

Rule 96; All members must time in their birds by means of a timing clock. No clock other than those recognised by the NWHU shall be used in any race. All clocks must carry a seal in transit and seal number must be recorded by the issuing society. Certificate issued for ETS clocks. All members must submit the clocks they intend using in the seasons races at least 14 days prior to the first race in which their society is to compete for three way testing. That within the three way test the locking bar on toulet clocks should only drop once. All mechanical clocks submitted for use in races shall be tested for a period of not less than 22 hours by clubs in each of the three positions, viz: upright in box, flat face down, flat face up and that a record be kept of the running of the clock which shall be signed by at least two persons conducting such a test. To be acceptable for use clocks must, when tested, have satisfied all the following requirements; (i) The maximum permitted rate of gain shall not exceed 5 seconds per hour. (ii) The maximum permitted rate of loss shall not exceed 5 seconds per hour. (iii) The difference between the variables in any two positions shall not exceed 5 seconds per hour. (iv) A certificate must be issued for a clock meeting and the test requirement.

Rule 97; Electro- Mechanical Electronic Clocks. Testing: clocks in this category submitted for use in races shall be tested by clubs for a period of not less than 22 hours during which any gain or loss must not exceed 5 seconds in the normal operating position and a record shall be kept of the running of the clock. When carrying out tests on t2, t3 t3s junior quartz clocks the following tests should be carried out with the clock closed. Ensure the thimble drum is in the start position (red showing) Push the plunger down until you hear the second "click". The plunger will now be

two thirds down position. If you release the plunger at this point it should not return to the start position. The action can now be completed by pushing down completely and then allowing it to return to the top position. If the plunger is pushed down to the second "click" and it returns to the start position the clock will have recorded a time, but the aperture may not have moved. It is essential to record the aperture number before and after use. Any clock found to have more prints than corresponding apertures is faulty. This test should be carried out at least twice. If a clock is found to be faulty then it cannot be used for competition. Checking: - on checking, a data print out must be obtained and on which must be written the competitors name(s), race point / date, name of organisation and clock setters signatures. The print information should be cross-checked against the digital display information in the clock itself. This must be done prior to the opening of the clock. In the event of a power cut or breakdown of the print-out the information contained on the digital display can be manually recorded. Stopped clocks.

Rule 98; Should any competitors clock stop or be rendered useless, they may have same reset by a member of the clock committee or time into the nearest competitors clock. The time allowance for reaching such a clock shall be at the rate of five minutes to the mile on foot, three minutes to the mile on cycle. No allowance shall be made for motor driven vehicles.

Rule 99; Should a clock have varied more than at the rate of 5 seconds per hour, a fast clock shall be regarded as correct; a slow clock shall have double the lost time added. A stopped clock shall be treated as a slow clock. The maximum penalty for a slow or stopped clock shall be the time recorded by the master timer when the clock is checked. Should a members clock stop through not being properly set or wound up the competitor shall have their entry fees and pool moneys returned in full. In the races where entries are double race rung, the above will apply in cases where one rubber ring from an entry is clocked. When a competitor in such races times the second ring into another clock (own or otherwise) and the clock into which the first rubber ring was clocked, stops or is rendered useless, then a velocity will be awarded on the times derived from the clock containing the second rubber ring. Running times to be allowed should this clock be at another competitor's loft (nearest) then both clocks must be returned to headquarters for checking. Clock setting and checking

Rule 100; All clocks must be set by the official clock committee, who must sign names on back of dials and rolls used on clocks they set. Together with the name of race point and date. The clock record sheet or envelope must bear clock number, the time of setting, race and date. All printing clocks to show control strike at setting. Clock record sheets or envelopes and entry forms shall be placed in sealed boxes at headquarters at conclusion of clock setting. After the race the official appointed must fill in master, clock times and variations. One thimble only shall be taken at a time from the clock and checked. All clocks must be set and checked by master time taken from Greenwich over the radio by the last pip of the time signal or from the gpo speaking clock "tim' obtainable over the telephone, and all organisations make their own arrangements as to the getting and distribution of greenwich time. ETS Radio clocks can be used as master timer for non ets clocks provided the radio clock has been synchronised. That when a master timer has paper dials it must be struck along with each members clock, both at setting and checking. That the number of the receptacle showing on a competitors clock, when set to receive the first bird, must be booked on the club clock sheet and checked at clock opening.

Rule 101; When a competitor has more than one clock set for a race they must nominate which is their number 1 clock. The only time they can use a second or subsequent clock is when the number 1 clock is rendered useless or in the event of certain races such as channel races when the number 1 clock has been taken to the societies headquarters for checking.

Rule 102; No member shall assist in any way in the setting and checking of their own clock. Return of clocks

Rule 103; All clocks set for a race must be returned to the club headquarters on the day that the bird is timed in if a velocity is to be awarded. If a bird is not timed in, the clock must be returned under seal. Clock recordings

Rule 104; All dials and rolls used in races must leave a complete and permanent record of punctures and imprints.

Rule 105; Anything arising not provided for in these rules shall be decided by the society's committee, whose decision shall be final and binding, subject to appeal to the NWHU within 21 days.

Rule 106; Belgica and La Ledoise clocks must be struck twice within five seconds of timing in each bird. Thimble must be in the first hole of the double puncture.

Rule 107; That all members using clocks with open ended thimbles must insert thimbles in clocks open end down. Failure to do this entails disqualification.

Rule 108;clocks -2 dial toulet. That all clocks must be fitted with square spindle.

Rule 109; all toulet clocks must be three studded.

Rule 110; approved clocks. Only clocks new or second-hand which have been approved by the nwhu can be acceptable for races under the nwhu rules. (see list of approved clocks)

Rule 111; the union recognises modifications to clocks recommended by clock manufacturers and that the owners of such clocks must make the necessary changes without undue delay Sealing of clocks.

Rule 112; All clocks that require sealing shall be sealed with a recognised seal. It is the responsibility of the owner or the owner's representative to ensure that the clock has been sealed. If the seal used at the time of sealing the members clock shall carry a serial number and/or letter, the same serial number and/or letter should be recorded and checked at unlocking.

#### **Master timers;**

Rule 113; that all clubs, federations, amalgamations and combines must use a master timer that leaves a permanent puncture or printed record. Thimble-less clocks That STB, benzing; and junior clocks can be used without the use of thimbles, without having to have a drum conversion. However, in the case of junior clocks, if these are used without the drum conversion, then a member must accept the responsibility for any damages caused to the clock – in other words these are used at members own risk. Click & clock inserts (instead of having a drum conversion) are to be allowed for junior clocks.

#### Electronic timing systems rules

1: Electronic timing system (ets) can be used to record times of birds providing the organisation has the equipment and the officials are willing to use it.

2: ETS must be fitted within the loft.

3: Permanent records are to be retained by the club.

4: Only versions of ets approved by council of nwhu are acceptable.

5: Access codes, electronic key and club systems must be authorised by the club.

6: Organisations must check the radio clock and ets has synchronised before marking. The radio clock must be used to set the clubs master timer (for conventional clocks).

7: The organisation has the right to inspect timing systems used.

8: ETS can only record the arrival time after the pigeon has entered the loft, not the traps or external fittings.

9: In the event of an escape, where required, other ets birds must have their official union i.d. Ring number recorded.

10: Assignment of allocation of ets rings to be carried out by authorised personnel 14 days before the first race on the federation programme.

11: Competitors names and race date to be recorded on all ets printouts, on race date and signed by clock setters and member.

12: No organisation can be made to use the ets nor provide the hardware and software for its use if there are no officials willing to administer its use.

13: No member is permitted to take part in the race marking / entry process of their own pigeons.

14: NWHU members be allowed to purchase their own chip rings from the manufacturers of ets that are approved by the nwhu only with the relevant receipt of authenticity being presented at their club to enable registration of rings with their nwhu loft number.

15: Operating procedures before, during and after races should be in accordance with manufacturer's instructions. Responsibility for providing manufacturers instruction manual to the organisation rests with the owner of the ets.

16: The club or organisation has the power to retain any ets they consider doubtful.

17: Organisations that promote races may determine times when ets will be checked after timing birds (see clock rule 103)

18: The ets approved for use by the nwhu are as follows: benzing; bricon; mega; victory; tauris; tipes and unikon and all to be unives 1.7 protocol.
